EDUCATION

University of Illinois Urbana-Champaign

Bachelor of Science in Computer Science and Mathematics

Urbana-Champaign, IL

2023 - 2027

EXPERIENCE

AI/ML Engineering Intern

May 2025 - Aug 2025

AMD

Santa Clara, CA

- Performance benchmarking/optimization for AI inference workloads on **AMD EPYC**
- Implemented **PCM/IBS** analysis to identify peak performance configurations for AI inference across models
- Performance engineering within **GCP** and **OCI** instances
- Implemented advanced techniques including **model quantization** and **KV caching** for hardware-aware acceleration

AI/ML Research Intern

Jan 2025 - May 2025

UIUC Grainger College of Engineering

Champaign, IL

- 1st Place** research award at URSA research symposium
- Developed a high-performance **image immunization pipeline** using **PyTorch** to defend against diffusion-based image editing attacks
- Optimized model architecture to achieve up to **500x speedup** versus prior image immunization techniques
- Delivered an **E2E mobile application** using **React Native** and **Flask**, targeting real-time use on edge devices

Technical Project Manager

Aug. 2025 - Present

Gies Disruption Lab

Champaign, IL

- Managing a team of **6 software engineers** delivering client-facing products for org clients and partners
- Primary **client point of contact**—translating business goals into clear technical deliverables and timelines
- Write/maintain **PRDs**; coordinate code/engineering reviews and ensure quality via test plans and staged releases

Software Engineer

Jan 2025 - Aug 2025

Gies Disruption Lab

Champaign, IL

- Led backend development for the product's **beta launch**, delivering the MVP to **over 100 pilot users**
- Designed and implemented a **RAG pipeline** using **Cohere**, **FAISS**, and **LangChain**
- Engineered a robust **FastAPI** backend to serve real-time responses from the LLM pipeline
- Developed a **Chrome extension** to embed the AI assistant into students' browsing experience
- Deployed infrastructure using **AWS EC2** and hosted static/model assets via **AWS S3** for production

PERSONAL PROJECTS

Github: github.com/aved2

Quant Developer Agent | *Python, Langchain, Llama, Alpaca*

Spring 2025

- Built an AI Agent that builds, tests, and optimizes algorithmic trading strategies on U.S. Cash Equities
- Leveraged **Llama 3.1** and **LangChain** to implement agentic reasoning loops for dynamic strategy development
- Integrated **SQLite caching** to enable low-latency data access and support intraday strategy performance

Real Time Sign Language Recognition | *Python, TensorFlow, OpenCV, ReactJS, IBM Cloud*

Fall 2024

- Developed and trained a **SSD-MobileNet** based **TensorFlow deep learning model** for ASL classification
- Integrated **OpenCV** for real-time video capture and gesture recognition in the browser
- Built a responsive **ReactJS frontend** to deliver an interactive user experience across devices

ACHIEVEMENTS

1st Place | *Illinois URSA Research Symposium*

Spring 2025

Deans List | *UIUC Siebel School of Computer Science*

Fall 2023 - Spring 2025

Bell Leadership Award | *Community Leadership*

Spring 2023

TECHNICAL SKILLS

Languages: Python, C/C++, Java, JavaScript, SQL, HTML, Bash

Frameworks: PyTorch, TensorFlow, OpenCV, ReactJS, Angular, VueJS, NodeJS, Spring Boot, Flask, Express, FastAPI

Dev Tools: Git, Docker, Linux, AWS, Jira
