Motivated and results-driven CS+Math student at UIUC, adept at leveraging analytical thinking, comprehensive programming skills, and experience with AI/ML and Full Stack Development to create innovative software solutions. Seeking to leverage proficiency with data structures, mathematical principles, and hands-on experience in software development to contribute effectively as a software engineer.

Quick learner, continuously striving to build technical expertise in a professional environment.

EDUCATION

University of Illinois Urbana-Champaign <i>3.95 GPA, Dean's List, Bachelor of Science in Computer Science and Mathematics</i>	Urbana-Champaign, IL
Dougherty Valley High School <i>4.6/4.0 GPA, 1530 SAT (800 Math, 730 R/W), National Merit Commendation</i>	San Ramon, CA

EXPERIENCE

Software Engineer, Research Assistant <i>Illinois Mathematics Lab</i> - Research Assistant to Professor Igor Mineyev, researching innovative solutions to popularize and disprove Kaplansky's Zero Divisor and Unit Conjecture, popular topics in modern Ring Theory and Topology. - Used ReactJS with custom ReactFlow components to develop a web-based game "Color Taiko", Apache Cordova to package directories into a mobile compatible version "ColorTaiko!" is a crowd sourcing method to finding valid counter examples to Kaplansky's conjecture	Jan 2024 - Dec 2024
Autonomous Navigation Engineer <i>Illinois Robotics In Space (IRIS)</i> - Integrated ROS2, RTAB-Maps, Nav2, Gazebo, Python to build an autonomous navigation system for a lunar rover - Completed lunar rover to be submitted to the NASA Lunabotics competition at the Kennedy Space Center, FL	Sept 2023 - Dec 2023

PERSONAL PROJECTS AND TECHNICAL SKILLS

Github: github.com/aved2

Real Time Sign Language Recognition <i>Python, TensorFlow, OpenCV, ReactJS, IBM Cloud</i> - Custom TensorFlow deep learning model to detect sign language OpenCV integration for real time webcam detections TensorflowJS model hosted with IBM Cloud Object Storage for public use ReactJS responsive frontend - Deployed with IBM Cloud Code Engine Website Link: https://sign-lang-recog.1jplb85vqagb.us-east.codeengine.appdomain.cloud/	Summer 2024
CRUD User Management Software <i>NodeJS, Express, MongoDB, EJS, Bootstrap, AWS Cloud</i> Full stack NodeJS user management portal with CRUD capabilities - Custom built RESTful API with Express, Mongoose, and MongoDB - Responsive frontend with EJS and Bootstrap - Deployed with AWS EC2 instance Website Link: https://aditya-ved-user-system.com	Summer 2024

Languages: C++, Java, Python, JavaScript, HTML/CSS, SQL, LaTeX

Frameworks/Libraries: PyTorch, LangChain, TensorFlow, Google Firebase, React, NodeJS, MongoDB, Flask

Developer Tools: AWS, Git, Docker, IBM, Android Studio, LMStudio

Design Tools: Adobe Suite, ProCreate, CSS Web-Design

Mathematical Skills: Graph Theory, Number Theory, Discrete Structures, Calculus, Linear Algebra, Statistics

Leadership: Bell Leadership Award Recipient, Wildcat Leadership Award Recipient

Communication: Excellent interpersonal communication skills enable me to collaborate with clients, stakeholders, and cross-functional teams to deliver high-quality results.
